

Circular Cities & Regions Initiative

Knowledge Hub

A Knowledge Hub to boost circular economy

The **Circular Cities and Regions Initiative (CCRI)** in short) is the European Commission's flagship initiative launched as part of the **EU Circular Economy Action Plan 2020** to boost circularity in EU cities and regions.

The CCRI Knowledge Hub forms part of this support scheme.

All European cities and regions willing to **boost circular practices** will benefit from the Knowledge Hub.

The Hub will **consolidate the available knowledge base** to support their circular systemic transition, providing good practices, methods, a technology dedicated marketplace and mentoring activities.

The Knowledge Hub empowers the CCRI community by offering:

- **Easy access to key knowledge** and resources
- **New opportunities** to take part in locally tailored mentoring programmes
- **Capacity-building** and **advisory support** activities on various topics, ranging from **public engagement, innovation & technology, impact evaluation** to business models and **financial support**

Our methodology:

- 1 Screen, collect and analyse the good practices and resources of circular economy projects and initiatives
- 2 Support circular economy action at the city/regional level
- 3 Facilitate evidence-informed policymaking
